

1. Partnerships and Coordination

- As the designated lead agency for supporting the Government of Ethiopia (GoE) in the management of migrant returnees, IOM continued to support GoE in coordinating support for quarantine facilities in Addis Ababa and the regions (54 in total).
- Following simulation exercises in two quarantine facilities, IOM is planning similar exercises in other quarantine facilities to prepare for upcoming returnees.

Supporting the Government of Ethiopia

2. Disease Surveillance

- Between 1 April and 4 June, Ethiopia received over **14,800** returnees: **4,440** from Sudan, **3,700** from Djibouti, approx. **3,000** from the Kingdom of Saudi Arabia (KSA), **2,350** from Somalia, **640** from Lebanon and **560** from Kenya.
- IOM, UNICEF, and the Red Cross supported the GoE in receiving **647** returnees from Lebanon and **270** from KSA at the Addis Ababa airport over the past week.
- IOM registered **2,408** migrant returnees in quarantine facilities: **647** Lebanese returnees (646 Female and 1 Male) in Addis Ababa, **144** returnees in Semera, **682** (449 male, 233 female) in Jijiga, 82 in Moyale (59 male, 23 female), **583** in Metema (553 male, 30 female) over the past week.
- Provided direct assistance to over **6,600** migrant returnees in quarantine including: transportation from Points of Entry (POEs) to quarantine facilities, registration, Non-food items (NFIs), Food, personal protective equipment (PPEs), subsistence allowance for onward transportation, family tracing and reunification, and Mental Health and Psychosocial Support (MHPSS) since April 1.
- Deployed two laboratory staff and supported the set-up of the COVID-19 laboratory in Addis Ababa Science and Technology University (AASTU) quarantine facility.
- Supporting Bule Hora Zonal Health Bureau to set up two screening points at entry and exit of Bule Hora town.

2,408 Returnees registered in quarantine facilities

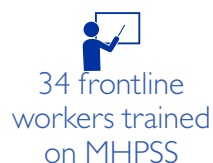

6,600 Returnees received direct assistance

3. Protection

- Trained 34 frontline workers deployed in quarantine facilities in Addis Ababa on mental health and psychosocial support (MHPSS) aspects of COVID-19.
- Provided MHPSS support to two returnees quarantined in Moyale.
- Following the Protection from Sexual Exploitation and Abuse (PSEA) assessment at three quarantine facilities in Addis Ababa, IOM continues to coordinate with the PSEA Network in Ethiopia to set up a complaints and feedback mechanism in returnee quarantine facilities.

4. Risk Communication and Community Engagement (RCCE)

- Reached over 840,000 individuals with hygiene awareness promotion, through door to door sensitizations, mass mobilization, sensitization during distributions, radio spots and leaflet distributions since April 1.
- Distributed over 15,900 soaps, 94 handwashing kits, and conducted 87 jerrycan cleaning campaigns.
- Trained 227 hygiene promoters, 15 WASH management committees, and 875 religious and community leaders on COVID-19 prevention measures and messaging.

5. Camp Coordination and Camp Management

- IOM and the Site Management Support (SMS) Working Group continued to advocate for decongestion and improved water supply in highest risk IDP sites identified through a joint assessment and presented findings at the Ministry of Peace, the Emergency Coordination Center and the Disaster Risk Management Bureau.
- Distributed COVID-19 specific site management work flow Standard Operating Procedures (SOPs) to IDP Site Managers across the country.

6. Displacement Tracking Matrix

- COVID-19 screening was continued at five Flow Monitoring Points.
- Access and baseline information is updated regularly and is available at <https://migration.iom.int>

Provision of support to returning Ethiopian migrants is being led by the Government of Ethiopia, under the coordination of UNRCO and IOM, and with contributions from:

IOM's work in Ethiopia is supported by:
